A. Cynthia, my beautiful bride, and I:

If you can't figure out how they are different, see below for a picture. And if you still can't figure out the difference, send an email to: [bginbc@aol.com](mailto:bginbc@aol.com) and put DIFFERENCE in the subject line.

All told, there were four entries and all four won. And that reminds me that it is now time to introduce ...

\*\*\*\*\* CONTEST #14 \*\*\*\*\*

One lucky winner will receive a copy of THE CASE FOR CULTURE: HOW TO STOP BEING A SLAVE TO YOUR LAW FIRM, GROW YOUR PRACTICE, AND ACTUALLY BE HAPPY by Eric Farber. To quote from the book's description on Amazon: Most lawyers don't set out to be business owners. They become business owners when they open their own law firm, and from that point forward, their work tends to become disconnected and chaotic. They're so busy with HR, bookkeeping, and marketing that they're lucky to have twenty minutes a day to work on cases. Many lawyers are drowning, which contributes to the profession's unsettling levels of alcoholism, drug addiction, and depression.

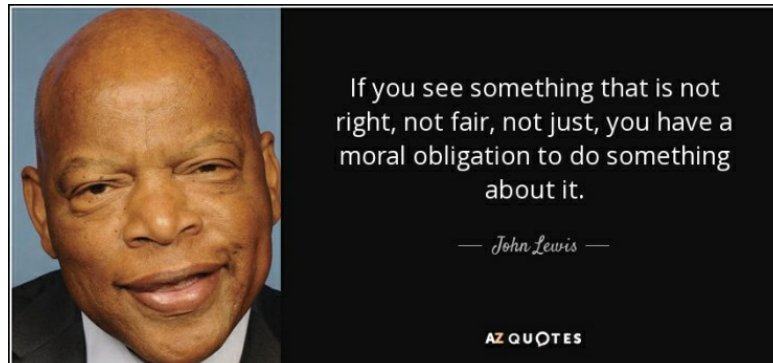

Note: If you're a lawyer (or you're friendly with a lawyer), you will want to read this book. But it is also a book that any business owner or entrepreneur will benefit from reading.

To enter the contest, send an email to: [bginbc@aol.com](mailto:bginbc@aol.com) and put CONTEST #14 in the subject line. In the body of the email, include both your name and mailing address. All entries must be received by 9 p.m. on Mon., July 27.

G. Reminder: You're invited to join Cynthia in either of the two courses she teaches for Arms Around ASD: Meditation on Mondays and Move Your Body on Wednesdays. To attend these and/or any of the others (that are open to the public), scroll down to Calendar when you click: [Here](#).

\*\*\*\*\* BLAINESWORLD BEST AWARD \*\*\*\*\*

Thanks, John Lewis (1940-2020), for your many years of dedicated service--both as a U.S. Representative from Georgia's 5th congressional district and as a civil rights leader. ... President Obama had it right when he bestowed the Presidential Medal of Freedom on Mr. Lewis in 2011. At the time, he said: "Generations from now, when parents teach their children what is meant by courage, the story of John Lewis will come to mind - an American who knew that change could not wait for some other person or some other time; whose life is a lesson in the fierce urgency of now." ... For more information about his remarkable life, please click: [Here](#)..

### 3. Joke 1

If God is watching us, the least we can do is be entertaining!

### 4. Reviews

A. Enjoyed A WALK TO REMEMBER on HBO, a romantic drama starring a young Mandy Moore (of THIS IS US fame). The story, based on the bestseller by Nicholas Sparks, is about a about a high school senior whose life changes as the result of an accident. Moore is good in her role, as was Peter Coyote as her father. The film, in some respects, reminded me of a non-musical version of FOOTLOOSE. Rated PG, but I think it would be more appropriate for over 11.

B. Saw THE RACK on TCM, a thought-provoking drama about a career soldier being tried by a military court for collaborating with the enemy. Paul Newman is excellent in the leading role, as were Wendell Corey, Walter Pidgeon, Edmond O'Brien, Anne Francis and Lee Marvin in supporting roles. Rated PG, but no way is this appropriate for anybody under the age of 13.

Did you know that dolphins are so smart that within a few weeks of captivity, they can train people to stand on the very edge of the pool and throw them fish?

Send it to: [bginbc@aol.com](mailto:bginbc@aol.com) and put THE TURTLES in the subject line.

### 9. Joke 3

The things you learn online! ... So does this mean if I don't take a test for COVID-19, I can't get it?

### 10. A quote I like

Thanks, Padma Dyvine, for sharing this one:  
"We will not go back to normal. Normal never was. Our pre-corona existence was not normal other than we normalized greed, inequity, exhaustion, depletion, extraction, disconnection, rage, hoarding, hate and lack. We should not long to return, my friends. We are being given the opportunity to stitch a new garment. One that fits all of humanity and nature."--Sonya Renee Taylor

### 11. Thought for the day

Amen--and awomen, too. (Thanks, Marilynne Herbert, for sharing.)

**Over the course of the COVID crisis, we have repeatedly seen leading scientists and scientific organizations change their recommendations, and we have seen multiple scientific studies retracted or at least highly debated. Many view this as proof that science doesn't work and/or scientists don't know what they are doing. In reality, this is exactly what we expect to see when science works. Science is a method, not a body of facts, and the method is often messy. Peer-review does not end with publication. Rather, studies are subjected to the scrutiny of the entire scientific community, and the fact that high-profile papers sometimes get retracted is**

evidence of science correcting itself. Similarly, the fact that scientists change their views as new evidence about a novel virus comes to light is a good thing! It means that scientists are learning and adjusting their views rather than clinging to biases and preconceptions. That's how science works.
